Subject: Consultation on Commissioned Management of Annual Fee Payment for Foreign Registered Patents

As described below, we want to delegate management of annual-fee payments for our company's foreign registered patents to a company specializing in management of annual patent fees, and hereby request your approval for this. (Based on consensus reached in meeting of enterprise patent team managers on June 26, 1996.)

1. Background (Need for Commissioned Management)

- Growth in the number of foreign registered patents has produced an increase in the variety of countries requiring management, and payment expenses and patent systems differ from country to country, gradually making management of annual fees more complex and difficult.
- Management expenses increase with an increased number of registrations and with payment of annual fees through foreign patent offices.
- Following transfer of patent management operations at business units, there is a much greater chance that important rights will be lost because of annual-fee payments omitted due to a lack of related experience.

2. Purpose and Effect

- Reduce management costs by hiring specialized company to perform related operations

Up to Present	Improvement Plan	Cost Savings
Domestic and foreign offices hired to perform payment operations. Domestic: 30,000 won/patent, Foreign: \$150/patent, Annual: 150 million won	Annual-fee payment company commissioned to perform management operations: \$50-\$39, Annual: 25 million won	Annual: 125 million won

- Commissioned management produces reduction in general management operations.
 - The business unit checks only whether payments were made using a list of annual-fee payments sent by the specialized company.
 - Payment expenses are batch processed with one invoice.
- Loss of rights due to poor management prevented.
 - A specialized program ensures thorough management and performs claim liability assurance [operations] in the event a problem occurs.

3. Requests

- Please verify accuracy before making corrections as errors in this data could result in the loss, all at once, of precious patents registered with the investment of considerable expense and effort.
(Corrections should be marked with a red pen.)
- Please complete your review and ensure that the Patent Strategy Team gets it by November 15.

1. May your company prosper.
2. Related data (total of 1397 cases) was transferred to our company after your company delegated to us management of annual fees for patents and utility designs registered overseas. Accordingly, we have compared and reviewed your company's list, which you sent, with lists from the offices of each agent, and have created an agent-specific list of registered patents, which we are sending.
3. Sections marked with a red pen on the enclosed list indicate items found on the agent's list, but not on the list maintained by your company. [Handwritten comment: "(Marked with a "[checkmark]" after the registration number.)"]
4. In the enclosed list, items with an agent code of LGE are found on the list maintained by your company, but not on the agent's list.
5. For sections of the enclosed list underlined in blue, if you verify and mark these items and then send them to us, we will revise our company's data.
6. We are sending an attachment of sections with discrepancies between the list maintained by your company and agent lists. Please check these and let us know [what to do about them].
7. For your information, we did not input items without a registration number and registration date. (It was decided that our company would manage only registered items.)
8. In the list with an agent code of (PJW4), the US patent with a registration number of 4961009 (marked with a fluorescent pen on page 2) is supposed to be an LG Semiconductor management item. Please check this and let us know [what to do about it].
9. Please indicate the designated country for the EP item below. Also, of the two items with registration numbers differing from those of other items, which you mentioned in your fax dated October 14, 91224689.8 (your ref.: 91042G5) is not found on the agent's list, so a precise registration number cannot be identified.

Date Drafted: October 31, 1996
Drafted by: Du-hyeon Yun (Tel: 3777-7052)
Subject: Verification of Data on Foreign Registered Patents Requested

Let's be number one!

As was discussed in the meeting of patent team managers last August, we brought in an outside company to handle management of annual registration fees for our foreign patents. I'm sending to your research center/OBU computerized data on our company's foreign registered patents. Please check it and make corrections for any erroneous or omitted data.

1. Procedures for Future Commissioned Management of Annual Fees

- **Confirmation of data (Business Unit): Check for problems in annual registration fee management data: November 15.** [Checkmarks made before and after sentence.]
- Correction of data (MARKPRO): November 23
- Ask foreign patent offices to suspend annual fee payment operations (Patent Strategy Team): November 30.
- Send reminder regarding payment of annual fees (MARKPRO): November 30.
Send new registration request forms.
- Verify reminder, and then issue order regarding payment of annual fees (Business Unit): December 10.

2. Description of Enclosed Data

- The enclosed data I'm sending you was output after double checking LGTIPIIS data against patent office data for management of annual registration fees.
- I marked separately or created a separate list for those data from the two sources that exhibit problems and for missing data. (See attached letter.)

3. Requests

- Please verify the files directly and thoroughly check them as errors in this data could result in the loss, all at once, of precious patents registered with the investment of considerable expense and effort.
(Correction should be marked with a red pen.)
- **Please complete your review and ensure that the Patent Strategy Team gets it by November 15.**

Subject: Trick play Reissue

document.pdf

Dear Yeo-Han,

We received an unofficial communication from Examiner Tran regarding the reissue application (trick play). Examiner Tran says that his supervisor has completed her review of the Reissue application has two concerns which must be met before the application will be passed to issue.

1) According to the USPTO records, the maintenance fee was not paid for U.S. Patent 5,587,789. The maintenance fee was due June 24, 2000. The USPTO will not reissue an expired patent.

According to our records, Computer Patent Annuities (CPA) in Jersey, Channel Islands was responsible for paying the issue fee. U.S. Patent 5,587,789 issued December 24, 1996, and we received a letter on April 25, 1997 instructing us that the maintenance fees were to be handled by CPA. Please see the attached letter.

Please inquiry with CPA to see if the maintenance fee was actually paid. Often, the USPTO makes mistakes and misplaces documents. If the maintenance fee was paid, we need to submit evidence, such as a date-stamped postcard, canceled check, etc.

If the maintenance fee was not paid, we can file a petition to accept late payment of the maintenance fee. There is no guarantee that the petition will be accepted, and we will need to explain the circumstances that resulted in the non-payment (e.g. company went out of business, file was lost by CPA, other types of confusion or irregular circumstances surrounding this Patent).

2) The Assent of Assignee/3.73(b) is defective, because it is unclear if the signer is empowered to act on behalf of the company. This matter can be readily overcome, by having a person with a self-evident title (e.g. president, CEO, etc.) to sign the Assent of Assignee, or by having the signer, make a statement that he is empowered to act on behalf of the company.

We can deal with the formality of issue (2) once we resolve issue (1).

I look forward to receiving CPA's comments as to whether or not they paid the maintenance fee, and we can proceed further after we have answered this matter.

Best Regards,

Scott

貴 사무소의 발전을 기원합니다.

우리 회사에서는 그동안 貴 사무소에서 여러가지 어려움속에서 단순 관리 업무인 해외 특허의 연차료 납부 업무를 지금까지 잘 관리해주신데 대하여 감시드리며, 앞으로는 이를 효율적으로 관리하기 위하여 외부 전문업체에 용역 의뢰할 예정입니다.

따라서 귀 사무소에서 관리하고 있는 데이터와 우리회사에서 관리하고 있는 데이터에서 이상이 있거나 누락된 데이터가 있어 아래와 같이 확인코자하오니 업무에 비쁘시겠지만 도와주시면 고맙겠습니다.

1. 연차료 관리회사 업무 위임 내용

- 등록된 특허에 대한 연차등록료 납부업무만 위임
출원 진행건의 연차료는 특허사무소에서 계속 관리

2. 효과

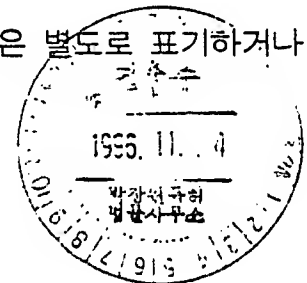

- 특허사무소의 잡무 경감
- 연차료 납부에 따른 해외사무소 수수료 절감(1회 납부시, 평균 \$150/건)
- 연차료 관리 부실로 인한 특허권 손실시 책임배상 가능

3. 향후 연차료 위탁관리 진행 절차

- 데이터 확인(사업장 및 사무소) : 데이터 이상 여부 확인 : 11월 15일
- 데이터 수정(연차료 관리회사)
- 해외 특허사무소에 연차료 납부업무 중지 요청 : 11월 30일

4. 유첨자료 설명

- 양 데이터종 이상이 있는 것과 누락된 데이터가 있는 것은 별도로 표기하거나 별도 List로 작성하였습니다. (첨부된 Letter 참조)

Subject: Verification of Data on Foreign Registered Patents Requested

May your office prosper.

Our company would like to express its thanks for the good job your office has done, amid various difficulties, in managing annual fee payment operations for [our] foreign patents, a simple management operation. To manage this efficiently, in the future, we plan to bring in a specialized outside company to handle this service.

Consequently, we would like to verify as follows problems or omissions in data managed by your office and in data managed by our company. I know you are busy with work, but we would appreciate your help in this.

1. Details of Operations Delegated to Annual Fee Management Company

- Delegated only operations involving payment of annual registration fees for registered patents ["registered patents" circled].
[Your] patent office will continue to manage annual fees for items with application in progress.

2. Effects

- Alleviates burden of miscellaneous business on [your] patent office.
- Reduces fees to foreign offices resulting from payment of annual fees (averaging \$150 per case for each payment).
- Possible liability for reparations on loss of patent rights due to poor management of annual fees

3. Procedures for Commissioned Management of Annual Fees in Future

- **Confirmation of data (Business Unit and [Patent] Office): Data checked for problems: November 15.** [Handwritten asterisk.]
- Correction of data (annual fee management company)
- Ask foreign patent offices to suspend annual fee payment operations: November 30.

4. Description of Enclosed Data

- I marked separately or created a separate list for those data from the two sources that exhibit problems and for missing data. (See attached letter.) [Stamp]

우리 회사에서는 단순관리 업무인 연차료 관리 업무를 효율적으로 운영하기 위해
해외에 등록된 특허의 연차료 관리업무를 외부 전문기관에 일괄 용역 의뢰할 계획입니다.

그동안 귀사무소에서 지금까지 특허의 연차료 업무를 잘 관리해 주신데 대하여
감시드리며, 앞으로 해외에서 연차료 납부와 관련해 추가적인 업무와 비용이 발생하지
않도록 아래 내용을 참조하여 유첨한 특허의 해외대리인에게 연차료 납부업무 중지를
요청바랍니다.

그리고 貴 사무소와 우리회사에서 관리되고 있는 연차료 납부에 필요한 데이터 중

Subject: Changes to Management of Annual-Fee Payment for Foreign Registered Patents

May your office prosper.

For efficient annual-fee management, which is a simple management operation, our company plans to bring in a specialized outside agency to provide turnkey service in annual-fee management operations for foreign registered patents.

We would like to thank your office for the good job you have done to date in managing annual patent fee operations. Please see the information below and ask the foreign agents for the attached patents to suspend annual-fee payment operations to ensure that no additional operations or expenses are generated in the future in connection with overseas payment of annual fees.

In addition, there are partial omissions of data needed for annual-fee payments managed by your office and our company (underlined in blue). I would appreciate it if you would check this and provide me with feedback.

1. Scope of Operations Delegated to Annual Fee Management Company

- ☐ Only annual registration fee payment operations for registered patents were delegated.
- ☐ Please have [your] patent office continue to manage annual fees for applications in progress.

2. Annual fee payment operations for the enclosed registered patents will be handled by a specialized outside agency beginning with annual fees to be paid on or after January 1, 1997.

- ☐ Please have your office make payments up through the end of 1996.

3. Data Verification Request

- ☐ Some data on annual-fee payment is missing from items subject to such payment requirements, making payment of annual fees problematic. Please check this and make the [necessary] corrections. In particular, please enter accurate publication dates for Japanese and Taiwanese patents.
- ☐ If registered patents for which your office filed the application are missing from the enclosed data, please enter the information as in the enclosed list and send it to me.

Re: Maintenance fees for LG ELECTRONICS INC.

Dear Mr. Kolasch:

As of January 1, 1997, the patentee Goldstar Co., Ltd. (now LG Electronics Inc.) is paying the patent annuities for all their patented cases via Computer Patent Annuities (CPA) of St. Helier, Jersey, Channel Islands. Accordingly, please do NOT send us further reminders for payment of the maintenance fees regarding the U.S. patents in the name of Goldstar Co. Ltd..

As you may know, Goldstar Co., Ltd. has changed its company name to LG Electronics as of February 28, 1995.

For your reference, we are enclosing herewith a list of patented cases of Goldstar Co., Ltd. handled by your firm. Kindly inform us of any patented case which you are prosecuting but has not been listed.

In view of possible future litigation, you are kindly requested to maintain all respective application files. Additionally, we ask you to continue handling prosecution in all matters for all pending or any future applications in the name of Goldstar Co., Ltd./LG Electronics Inc., until such applications are granted. After grant, the payment of the maintenance fees will be handled by CPA.

Please acknowledge safe receipt of these instructions. Your kind assistance in this matter would be highly appreciated.

Very truly yours,
PARK, KIM & PARTNER.
